

ACRP 13. Ausschreibung - Förderentscheidung 2020

lfd. Nr.	Projekttitel	Kurztitel	Zuerkanntes Themenfeld	max. Förderung in €
1	Leveraging systemic shocks for integrated climate change adaptation and mitigation	Build Back Better	Climate change in an interconnected world	299.130
2	Managing Austrian Beech Forests for Climate and Biodiversity	ManageBeech	Specific support for Austria's policymakers	255.043
3	Reaching climate neutrality in Austria by 2040: engaging stakeholders for model-supported scenario development	NetZero2040	Specific support for Austria's policymakers	299.640
4	Farm-level modelling and digital monitoring of non-CO2 greenhouse gas emissions in Austria	nonCO2farm	Specific support for Austria's policymakers	298.969
5	Emerging Agricultural Weeds under Climate and land-use changes in Central Europe: identifying high-risk species, modelling their distribution, assessing impacts and management needs	AgriWeedClim	Specific support for Austria's policymakers	244.453
6	Social vulnerability and adaptive capacity to risks from the impacts of future heat waves and air pollution	Future_Capacity	Specific support for Austria's policymakers	299.599
7	Social Innovation for Adaptation and Mitigation: Experimentation for Transformative Climate Governance	SIAMESE	Transformative change and governance	188.648
8	TRANSformative REALism for effective climate action	TRANSREAL	Transformative change and governance	284.884
9	Low-carbon transition in Austria: Exploring social, financial and ethical dimensions of ambitious climate policy	TransFair	Transformative change and governance	299.485
10	Shaping the future of air travel	TRANSFLIGHT	Transformative change and governance	299.936
11	Electrification of heating and mobility: Socioeconomic impacts of non-ETS policies with sector coupling and sectoral linkages	ELECTRO_COUP	Transformative change and governance	122.002
12	Socially Fair Options for a Climate Neutral Transformation of Housing and Mobility in Austria	TransFair-AT	Transformative change and governance	299.934
13	The effect of changing climate on potential risks from important insect pests on plant production in Austria and related adaptation options	RIMPEST	Understanding the climate system and consequences of climate change	299.928
14	Impact of longer Drought Periods on Climate in Greater Vienna: appropriate Mitigation measures	Imp_DroP	Understanding the climate system and consequences of climate change	299.551
15	Soil erosion in Austria - from mean to extreme	EROS-A	Understanding the climate system and consequences of climate change	299.916
16	Towards enhancing the carbon stocks in forests: Unravelling the wood production potentials under sustainability conditions for Austria	UNRAVEL	Understanding the climate system and consequences of climate change	299.963
			Summe Förderentscheidung	4.391.081,00
